Wheels For Kenya

GOSPEL-BASED WHEELCHAIR DISTRIBUTION

Sharing Hope

Each summer, a team of therapists, medical personnel, and support staff travel to Kenya to facilitate the distribution and personalized fitting of wheelchairs to children and adults with disabilities throughout villages and cities. The American team is joined by a team of Kenyan co-laborers and pastors who join in shareing eternal hope with many families who have with many families who have suffered great agony and despair related to their disability. Join our team by praying, offering your services on a trip, or helping to fund the ministry!

"Those who go out weeping...will return with songs of joy."
Psalm 126

Redeeming Lives And Wheelchairs

The 200+ wheelchairs that are shipped to Kenya each year for distribution have already seen redemption. Months or years prior, used and broken down wheelchairs are collected by Joni and Friends and sent to prisons for replacing parts, repainting, and providing a totaltune-up. This meaningful work in turn is transforming the lives of prisoners throughout America! Find a Joni and Friends collection point to donate your used mobility device towards this transformative work!
